

D4LS priorities are:

- Build academic staff capability in learning design, assessment and technologies for learning.
- Develop learning analytics system, supported by increased formative assessment on-line
- Commence implementation of learner capability model to develop, assess and report capability achievement for all learners
- Strengthen experiential learning in all programmes to enhance employability outcomes
- Increase student managed learning for enhanced employability and more manageable staff workloads
- Grow on-line elements of blended learning for improved efficiency and more manageable staff workloads
- Embed strategic frameworks into all programmes as appropriate - priority for Maori Strategic Framework and Sustainable Strategic Framework.

OP Curriculum Design & Development
